## Certificate of Compliance

**Products & Materials Included under RoHS3:** All Products Supplied

**Excluded Products & Materials:** None.

The Company, Protex Fasteners Ltd, declares that the included products & materials above comply with the RoHS3 directive 2015/863 on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Each component/material used in our products does not contain the following substances, or, if contained, their percentage will not exceed the limits given below: -

Substances and Limits for Each Homogeneous Material Used:

<b>Lead:</b>	Limit: < 0.1% by weight (1000 ppm)
<b>Mercury:</b>	Limit: < 0.01% by weight (100 ppm)
<b>Hexavalent chromium:</b>	Limit: < 0.1% by weight (1000 ppm)
<b>Polybrominated biphenyls (PBB):</b>	Limit: < 0.1% by weight (1000 ppm)
<b>Polybrominated diphenyl ethers (PBDE) - flame retardents, including Deca BDE:</b>	Limit: < 0.1% by weight (1000 ppm)
<b>Cadmium:</b>	Limit: < 0.01% by weight (100 ppm)
<b>Benzyl butyl phthalate (BBP)</b>	Limit: < 0.1% by weight (1000 ppm)
<b>Dibutyl phthalate (DBP)</b>	Limit: < 0.1% by weight (1000 ppm)
<b>Diisobutyl phthalate (DIBP)</b>	Limit: < 0.1% by weight (1000 ppm)
<b>Bis(2-Ethylhexyl) phthalate (DEHP)</b>	Limit: < 0.1% by weight (1000 ppm)

We confirm that the Company has procedures in place that both minimises the risk of non-conformity and that maintains conformity. We assess & audit all new suppliers for RoHS3 conformity, and re-assess existing suppliers.

We undertake to keep a register and inform clients immediately if evidence of supply of non-compliant product arises.
